

REMARKS

The above amendments are made to delete multiple dependency claim language, to place the claims in better condition for examination and to add new claims that also help define the invention sought to be patented. The claims are believed to be in condition for examination, and such action is earnestly requested.

While no fees are believed to be payable with this communication, the Commissioner is hereby expressly authorized to charge any fees or credit any overpayment to Deposit Account No. 50-1170.

Respectfully submitted,
